

Inmarsat FleetPhone. At Sea.

FleetPhone is the first global maritime satellite voice service from Inmarsat. It delivers clear voice quality, circuit switched data and SMS messaging communications. Simple to install and use, it connects to existing phone systems making it easy for captain and crew to make calls at anytime.

FleetPhone is ideally suited for the marine transportation, commercial fishing, leisure, maritime offshore and cruise segments.

It brings additional security onboard with the 505 emergency calling feature, while Vizada Solutions™ optimize the service with cost-effective tools for your daily communication and administration needs.

Key benefits

- Clear voice service (2.4 kbps).
- Messaging: text-to-text, text-to-email, web message to FleetPhone.
- Circuit-switched data (up to 20kbps) with SkyFile® Mail compression.
- Single and multi-user capability: connections of up to 5 standard phones or integration to a PABX system.
- Reliable and lightweight terminals and antenna; easy to install.
- Global coverage on Inmarsat's I4 network.

Business applications

FleetPhone is suitable for specific maritime business applications:

- Second voice line to complete a FleetBroadband package.
- Universal Card™ for crew prepaid private calls.
- PABX integration.
- Captain's private line.
- 505 emergency calling service.
- Piracy safe room and dedicated lifeline onboard.

Get more. With Vizada Solutions™.

Vizada Solutions™ is our portfolio of leading edge technologies designed to optimize the benefits of our standard satellite connectivity services. To help you get more from your FleetPhone Pro handset and service, Vizada offers a number of solutions:

- **Efficient online business tools:** control and monitor SIM cards and traffic using The Source, Vizada's web based information management system.
- **Versatile messaging service:** SkyFile® Mail saves time and money by compressing emails, e-faxes and SMS by up to 90%. Vizada's SkyFile Mail includes a crash recovery function, antivirus and an anti-spam filter.
- **Cost-efficient prepaid solutions:** use Vizada's Universal Card™ with your FleetPhone for flexible and easy prepaid calling.* Avoid unwanted postpaid traffic with a special call blocker authorizing prepaid calls only.
- **Cost-effective Fixed2Mobile calling:** using Satellite Direct® and Satellite Direct Plus®, place calls from any landline or wireless phone to any mobile satellite terminal, including your FleetPhone at a price more affordable than standard landline charges.

* This service is not available for use in the United States. For current information please contact Vizada Customer Care at customer care@vizada.com

Robust terminals and antenna

The FleetPhone service is available through two terminals:

The Oceana 400 is a simple and cost-effective below-deck unit which features a RJ11/POTS interface, enabling 5 standard phones or integration to a PABX system - an ideal solution for crew calling.

The Oceana 800 is an all-in-one terminal, with integrated Bluetooth, LCD display for phonebook and SMS, an active privacy handset, and built-in speakerphone. It features an integrated GPS receiver providing tracking and instant messaging reporting via SMS.

The two terminals work with the omni-directional **BEAM Active Marine antenna ISD710**, a compact and lightweight device of less than one kilo that provides a high quality marine enclosure with a solid mounting bracket.

Specifications	Oceana 400	Oceana 800
