

Satellite communications. And more.™

SkyFile® C

SkyFile® C optimizes messaging and email via Inmarsat C and Inmarsat Mini C for easy and cost-efficient data communications.

It is very simple to use and enables you to send and receive emails as well as short messages (SMS) via an Inmarsat C or Mini C terminal. There is no need for extra hardware or software on the vessel or on the shore side.

SkyFile® C is part of our portfolio of Vizada Solutions™. Using the same server as SkyFile® Mail, SkyFile C offers the same valuable features such as black & white lists, volume limitation, subject keyword and more.

At a Glance

- **Simple:** easy to use; no dedicated software required.
- **Free-of-charge:** pay for airtime only, no monthly fees or costs.
- **Cost-efficient:** pay one report and send to up to 5 recipients.
- **Dependable:** provides reliable & secure data communications.
- **Secure:** control your communications by using filters.
- **Versatile:** decide where the bill is applied (on shore or on mobile side).
- **Flexible:** send reports in a variety of formats, including text, attachment, and 8bits transparent-data formats.

Messaging. And More.

SkyFile C optimizes messaging and reduces costs on Inmarsat C and Mini C, especially for messages sent to fleets of ships.

- **FleetNet announcement:** send FleetNet messages via email, IP/Telnet, PSTN (standard telephone network) and telex.
- **Tracking & fleet management:** Vizada's teleports feature the latest IP technology* delivering more flexibility and security for:
 - Vessel Monitoring Systems (VMS)
 - Low Range Identification and Tracking (LRIT).
- **Enhanced Pre-Assigned Data Report (EPADR):** increases the reliability and operational efficiency of your position reports.
- **Complete, secure traffic management:** control communications by using filters:
 - Anti-spam & anti-virus
 - Black & white lists - subject keywords
 - Volume control.
- **Dedicated DNID Manager 2 web-access:** allows to download and remove DNIDs or perform basic DNID operations and tracking management - particularly adapted to LRIT and VMS providers. (Note: DNID Manager 2 is subject to a special contract with Vizada.)

* Polling & Data Reporting still accessible via email, PSTN and Telex.

Solutions

Generate reports with greater cost efficiency

SkyFile C allows you to send a single data report to multiple recipients (maximum of five), regardless of format (txt, telex, etc), making your reporting even more cost-efficient. SkyFile C also reduces your transmission airtime by up to a third by sending ship-to-shore and shore-to-ship messages in 5-bit mode.

Inmarsat C and Inmarsat Mini C

Inmarsat C and Mini C services provide two-way store-and-forward messaging, land mobile & maritime distress calling, data reporting and polling as well as Enhanced Group Call (EGC) such as EGC SafetyNET™ and FleetNET™.

Inmarsat C

- Light, compact equipment: less than 4 kg.
- Approved for use under the GMDSS and mandatory for Solas-compliant ships operating outside Navtex coverage areas.
- Enhanced services for VMS.
- EPADR compliant: most T&T and Furuno Inmarsat C terminals.

Inmarsat Mini C

- All-in-one antenna.
- 6 inputs/outputs for sensors.
- Very low power consumption (only 10.2 mW on standby).
- Light, compact equipment: app. 1.1 kg.
- Approved for use under the GMDSS and mandatory for Solas-compliant ships operating outside Navtex coverage areas.
- Enhanced services for VMS.
- EPADR compliant: most T&T and Furuno Inmarsat Mini C terminals.

Getting started

To register for SkyFile® C, please download the application form from the Vizada Website or contact Vizada Customer Care.
